

# THE JULE

**WHITE PAPER V1.0**

[WWW.JULETOKEN.COM](http://WWW.JULETOKEN.COM)

# INTRODUCTION

Welcome to the world of decentralized currency, where freedom from bureaucratic control is more than just a dream—it's a reality waiting to be embraced!

In the wake of the Cyprus banking crisis, we dove headfirst into the crypto realm and uncovered two major hurdles begging for solutions.

Firstly, while crypto is profitable, it's often seen as a secret club for the tech-savvy few. But what if everyone could join the party? Picture a world where crypto isn't just for the degens and techies but for every Tom, Dick, and Harry (or should we say Satoshi?). This shift would not only fill everyone's bags but also loosen the grip of those trying to control us from behind closed doors.

Secondly, decentralized finance is where it's at bae-bee, that is where the real magic happens. Imagine a world where old decrepit politicians who still use VCRs and shady bureaucrats can't drain our wallets to fund endless wars. To make this dream a reality, we need to turbocharge crypto adoption among everyday folks and small business owners. Small businesses are Zuul, the Gatekeeper, we must be Vinz Clortho, the Keymaster, using our keys letting the crypto flow all over and inside their gates. And that's where the fun begins!

## THE JULE

---

Let's talk crypto. Bitcoin's a legend, but it's got limitations. the restricted supply of 21 million bitcoins (equaling 2.1 quadrillion Satoshis) and the substantial energy consumption required for mining.

With a supply capped at 100 million tokens, Jule isn't just a currency; it's a movement. No taxes, no drama—just pure potential.

We're here to make crypto understandable, accessible, and downright fun. A cryptocurrency should serve its primary purpose as a currency. Incorporating additional features is simply adding unnecessary complexity. The aim should be to make the currency understandable to normies and develop software that can accommodate all cryptocurrencies. For more than a decade, we've envisioned Jule. You might wonder about the name's significance.

Remember in Back to the Future part 3 when Doc Brown introduced Marty to his kids Jules and Verne? What about the Goonies? Do you remember when Mikey found his marble

bag full of jewels? How about the iconic rap duo Run the Jewels? These three icons in pop culture made us think... Jules Verne, a novelist and futurist, believed that technology in the hands of the few would result in tyranny, but in the hands of the people, would bring about freedom for all.

## TOKENOMICS

---

**L**ike we said earlier, zero taxes, zero bullshit, no dog and pony show, the Jule is built to be forever. Forever-ever? Forever-ever! To hit critical mass where even boomers are lapping in, everything must be super simple and how the word Jule rolls off your tongue - make it rain Jules on dem... well you get what we're throwing down.

- 50% of the supply will be available via IDO
- (60% of IDO will be locked in our liquidity pool)
- 20% reserved for the team and new team members and advisors to carry the torch and to keep calm, and carry on.
- 10% for marketing
- 10% for CEX
- 10% for Nemoo (24 months lock)

## FAMILY JULES

---

**A**ll successful ventures thrive on a strong community, akin to a close-knit family, and for us, family is paramount - the Family Jules. After careful consideration of various blockchains like Base and Solana, we opted for Ethereum. Why, you might wonder?

Because just as Shiba Inu paved the way for newcomers to crypto, more and more outside the crypto realm are acquainted with ETH-based tokens. The name Jule, resonates instantly with people, inviting them to embrace it. Whether you're a newcomer or crypto head who wouldn't want a bag of Jules? We think one day rappers will be talking about the Jule bag.

As a token of gratitude to our Jules family post IDO, we'll airdrop unique Jule art NFTs to five lucky holders. Teaming up with TokenFrame, we'll ship one of their NFT frames globally to each fortunate family member. Additionally, with every centralized exchange listing for Jule, we'll craft a brand-new, exclusive art NFT and airdrop it to another lucky family member, who'll also have the chance to claim a complimentary Tokenframe.

## WHAT IS NEMOO?

---

**R**unning a typical taco restaurant requires using around ten different software tools. While some software bundles multiple features together, very few offer a comprehensive solution that covers all necessary functions.

Let's take a deep dive into what is needed.

- **Point of Sale System**
- **Reservation and Table Management Tools**
- **Inventory Management Tools**
- **Employee Scheduling and Management Tools**
- **Accounting and Financial Tools**
- **Customer Relationship Management / Loyalty Tools**
- **Online Ordering and Delivery Tools**  
(We saw during the 'Rona, businesses that didn't have this went out of business real quick.)
- **Marketing and Promotions Tools**
- **Food Safety and Compliance Tools**
- **Analytics and Reporting Tools**

Imagine a world where your success isn't dictated by suits in boardrooms but by your own savvy decisions. With Nemoo, whether you're slinging tacos or managing a small hotel on the beach, you're the captain of your ship, and no one can steer you off course.

Best part? It's all free, so you can focus on what matters—building your empire in five minutes flat, from anywhere on the map!

### **Nemoo Mission:**

Nemoo is the decentralized point of sale app, and it wasn't even our idea. Our American friend, who has a long history of bucking the system (he was once directly canceled by Mark Zuckerberg), has created free tools for the people before, and we asked him how he would make crypto widely adopted as quickly as possible.

He's the one who told us about the software barriers to opening up a business whether they run a taco truck, a dive bar, a weed shop, or a boutique hotel in South Beach - and if we solve their pain points while giving them the ability to accept crypto, to-the-moon.

Nemoo will be launched as an all-in-one decentralized point-of-sale system with built-in industry themes. You pick which industry you're in, and all features are automatically loaded so that you can be up and running within 5 minutes.

Nemoo will be free to use and will work with off-the-shelf hardware.

No need for proprietary hardware with inflated costs. Nemoo will develop a plug and play feature giving you the ability to grab a cash drawn or barcode scanner straight from Amazon,

and it will all be plug-and-play whether you have an iPad or Android-based tablet.

**The Jule is a crypto that the masses can rally around and Nemoo is the platform this industry has been crying out for.**

## CONCLUSION

---

**T**his document is constantly updated, and the information provided is accurate at the time of publication. It's important to note that the content herein is not intended as investment advice, financial advice, trading advice, or any other form of advice, and you should not interpret it as such.

The Jule team advises you to conduct your own due diligence and consult with your financial advisor before making any investment decisions. When purchasing any Jules, you acknowledge that you are not acquiring a security or investment, and you agree to release the team from any responsibility and liability for any losses or taxes you may experience.

Additionally, you acknowledge that the team presents the products "as is" and is not obligated to provide any support or services. You should not expect any form of support from the Jule Ecosystem and its team.

Although Jule operates as a community-driven DeFi Ecosystem and is not a registered digital currency, the team strongly advises against citizens in areas with government bans on crypto purchasing it, as the team cannot guarantee compliance with local regulations. Always ensure that you are in compliance with your jurisdiction's laws and regulations before making any purchases.
